Introducing

IMATION SECURE SCAN

Protect the health of your LTO library

A Complete Solution

Imation Secure Scan enables you to proactively assess the health of an LTO library at your convenience and diagnose the root cause of possible drive or media errors. This allows you to take a proactive approach in avoiding data loss. Imation Secure Scan provides immediate feedback on the viability of individual cartridges and enables you to monitor media subsets or entire libraries. Using Imation's proven patent-pending algorithm based on years of scanning experience, you can now pinpoint real problems with very high accuracy.

Features and Benefits

+ SECURITY
With the patent-pending data security feature, you can choose to lock the cartridges for added security during transport or storage. When locked, the cartridge cannot be read from, or written to, by any LTO drive.

+ EASY-TO-USE MEDIA DIAGNOSTICS
Comes complete with an integral barcode reader that enables cartridge scans in or out of poly storage cases, providing immediate feedback on the viability of individual cartridges. The software enables you to monitor media subsets or entire libraries with easy-to-use statistical graphics and reports.

+ TECHNICAL SERVICE
An innovative "phone-home" feature allows you to submit scan information directly to Imation's technical service organization for a more in-depth analysis and comparison against industry trends.

Product Contents

The Imation Secure Scan device comes packed securely in a convenient carrying case with USB cables, an installation CD, a quick start guide, perpetual software license for Scan feature, and a one year license for lock/unlock and "phone-home" feature.

Technical Specifications

SIZE:
5.59"L x 5.64"W x 2.44"H
(142 x 143 x 62 mm)

WEIGHT:
0.70 lbs (0.32 kg)

SYSTEM REQUIREMENTS:
Color monitor - 1024X768 or greater native screen resolution (required)

Pentium 4 processor or better

512MB RAM (minimum)

10MB hard disk space (minimum)

32 bit operating system (ie. MicroSoft Windows 2000/XP)

INTERFACE:
USB 2.0 (two available ports)

WARRANTY:
1 year limited
